Course Description

Course Overview

Public Value Leadership Creating Citizen-Centered Outcomes is a specialized leadership development program designed to help managers and supervisors in government and public sector organizations understand how leadership decisions and actions contribute to meaningful outcomes for citizens and communities. Modern public institutions are increasingly expected to deliver services that are efficient transparent and aligned with public needs. This course provides participants with structured leadership frameworks that focus on creating public value improving service quality and strengthening trust between institutions and citizens.

This program is particularly valuable as leadership training for new managers who are responsible for leading teams delivering services and contributing to institutional performance. As a new manager leadership course and leadership development for team leaders it helps participants connect their leadership roles with citizen focused outcomes and organizational impact while strengthening management skills training and leadership confidence.
